Demand Ten Hours' Pay for Nine Hours' 7ork,

While Their Brethren in St. Louis Ask for an Eight-Hour Day-Framers of New York, Brooklyn and Jersey Cits Pool Their Interests.

STRACUSE, N. Y., April 2.—The different branches of the Carpenters' Union and Joiners and Builders' Union in this city ordered its members to quit work for the day at five o'clock last night, and hereafter to work only mue hours for a day's work. Each union man must also work for not less than 2214 cents an hour, and must not work with non-union men. The boss carpenters have issued the following notice: "Resolved. That we the employers of carpen-ter and jo ner labor of Syracuse, will not re-talu in our employ any man who will not abor ten bo rs for a day's work; and that each employer will settle with his employes individually." The bosses say that if the m n refuse to work ten hours they will have to leave their places.

to leave their places.

New York April 2.—Yesterday the Framers' Union submitted its agreement to the employers in this city. The men met unday and decided that a demand should be made for the equalization of wages this city. Brook you and Jersey City. An in this city, Brook yn and Jersey City. An agreement binding the employers to pay forty cents per hour for day work and double price for over-time and Sunday work wa - accordingly submitted yesterday morning to the bosses who had not already signed the agreement in accordance with these terms. The agreement is binding un-til May 1 next. Bo far about twenty-five of the large temployers have agreed to the demands of the mon. About 150 men are already out.

The German Painters' Union made their dem and yesterday for a uniform rate of \$3.50 for nine hours' work pur day. Of the 1,100 members of the union, about 400 are gettin that figure. The basses were asked, in ships where only three do lars were being p dd, to grant the increase. The demand was in severa! Instances granted, but only twinty employer - yet refuse to concede the

terms demanded by the mon.

BUFFALO, N. Y. April 2.—About 600 members of the Ca p-n ers and Joiners' Union and 200 members of the Painters' Union struck work vesterday because the bosses refused to allow nine hours as a full day's work beginning April 1. The bosses are willing to concede nine hours, beginning on the lat of June, but not before. Both of the striking organizations have established headquarters. The bosses have not yet de-

The striking journeymen carpenters me at Central Turner Hall Monday morning and appointed committees to look after the in-terests of the strikers. The men are firm in their position, and as the boss carpenters decline to recognize the demands of their former employes a bitter st uggle is prob-able. Work on a large number of buildings has been suspended and there is much solicitule as to the outcome of the trouble.

Sr. Louis, April 2.—About 1,200 of the 2,600 carpenters in this city went on a strike yesterday. The causes leadin to this action are the demand of the men for an eight-hour day and forty cents per hour as standard wages. The bosses seem to have generally conceded the eight-hour day, but are divided about the wages, many of them being un-willing to give more than thirty cents per our. In addi ion to this the men are much agitated over the fact that the boases sistently ignore the Brotherhood of Carpen ters" and they say they are determined to have recognition as an organization. W. H. Kilver, vice president of the Brotherhood of Carpenters and Joiners, has been in the city several weeks, has been active in working up the movement and has charge of the

> scription of Their Armament, Size and Equipment-Work on the Charleston Be-

ing Hurrled Forward. WASHINGTON, April 2.—At the Navy Department ye-terday there was a dearth of news concerning the Samoan disaster. The Becretary of the Navy has cabled to Aucklan I that the men of the wrecked vessels Trenton, Vanda is and Nipele are to be taken to San Francisco. The instructions given some days ago to hurry forward the preparation of the Charleston, now being built at San Francisco, have been reiterated and every effort will be made to get her guns and gun carriages transported over-land at the earliest possible moment. The guns are ready at the proving ground at Annapolis and the carriages are about com-pleted at the Washington ordnance foundry.

Secretary Tracy has received replies to telegrams ent to the commander of the Alert. That vessel is in excellent condition Alert. That vessel is in excellent condition and can leave Honolulu, where she is now stationed, at once. She has been ordered to do this and will reach Apia in about thirty days. The Richmond is attached to the South Atlantic squa ron and is now at the mouth of the La Platte river. She will probably be at Apia shortly after the Alert arrives. It will take about ten days to get the Adams ready for sea. The vessel is now at Mare Island and orders have been issued to put her in condition for sea. She will arrive at Apia within a week after the arrival of the A ert and following closely on the

The three vessels that will take the places of the American war ships that were de-stroyed at Apia do not compare in size, apped and alrength with the latter. The Richmond is the largest of the ships that will be sent to the islands. She was built at Norfolk by the Government in 1858. Her disp seement is 2 700 tons. While her speed is set down at 9.5 knots per hour, it is proba-ble that she will not realize that rate. Her batterl's consist of two ve nine-inch smoothbore guis; one eight-inch muzzle-loading rifle; one sixty-pound breech-loading rifle; two tw niy-p and breech-loading rifles; four rifled cannon; one three-inch breech louding rifle; one Gatling and two twelve-nound mooth bore rifle. She has a com-plement of twenty-nine officers and 321 men. She is commanded by Captain Allen V.

The Alert is commanded by Commander James D. Graham. She is one of John Roach's ships, and was built by him at Chester, Pa., between 1873 and 1875. Her rig is that of a bark; her length 175 feet and her speed is estimated at ten knots an bour. Her battery consists of one eleven-inch smooth-here gun; two nine-inch smoothbores; one sixty-pound breach-load ng rife; one three-inch breech-loading rife; one twelve-pound smooth-bore howitzer; Gutting and two rifled cannon. She has twelve officers and 114 men.

The detail of officers for the Adams has not yet been made, and detail clerks at the Navy Department are busily engaged in selecting the men. A number of shipwrecked blue jackets from the ill-fated vessels will probably compose part of her crew. The Adams is a wooden vessel of the third rate. She was built between 1874 and 1876 at Boston, by McKav and the Government. She is 185 feet long. Her displacement is 1,375 toos her indicated horse power 550, and her speed 2.8 knots per hour. The Adams carries tweaty officers and 116 men. Her armament is composed of six 2n -inch smeeth-horses; one eight-inch music-leading rifle; one sixty-powed music-leading rifle; one three-inch bree-sh-loating rifle; one three-should amouth-bore howitser; two rifled cannon and one Gatling.

A Mixed Ticket Elected.

CINCINNATI, O., April 2.—The interest in resterday s election was occasioned by the reform movement, led by Daniel Stone, to strictly enforce the law regarding the sale of beer on Sunday. The contest resulted in the election of a mixed ticket four Republicans and four Democrats. Mosby, Republican, for mayor, has a plurality of at 500. General Noyes, for Judge of the Su-perior Court; Horstmin, for city soliciter, and Zie ler, for treasurer, were elected The Democrate who won were: Stevens for comptreller; Ermston, for police judge; Corcoran, for prosecuting attorney of the police court, and Hocker, for infirmary director. Stone, the Citizens' candidate for mayor, received about 7,400 votas.

A Mysterious Murder.

LEXINGTON, Ky., April 2.—Monday morning Betty Shay, a white dome tic, aged twenty-one, was brutally murdered in her room at her employer's home. A shawl was wrapped tightly around her bead. Her skull was crushed in by some blunt instrument, and she had been dead probably six hours when discovered. She was in her night clothes. There is no clew to the much the state of the state derer and the police are mystified. Miss shay had many acquaintances and was popular and the affair causes great excite ment.

The Confederate Soldiers' Home. New Yors, April 2.—The Legislature of Texas has leased the old State Capitol for five years to the Confederate Soldiers' Home, at a rental of five d dlars a year. The building will be used as the home. It produces \$1,500 a year in rents, so that the home will have a steady revenue. The Tras constitution would not allow a direct appropriation of money for the purpose, so that this method of aiding the charity was added.

Locomotive Drawing an Express Train of Nine Coaches Arrives at Buralo From Jersey City After the Longest Run Ever Made by a Single Engine.

BUFFALO, N. Y., April 2.-A party of New York journalists representing all the New York papers, the Associated and United Press, arrived here last night over the Erie road from Jersey C ty in a Pullman coach attached to the regular day express. The party were jointly the guests of the Strong Locomotive Company, of Philadelphia, and the Erie Railroad Company. The occasion was the testing of a new and improved loco-motive built by the Strong company, and with which it was proposed to make the en tire run—428 miles—the longest ever made

by a single engine. The ordinary runs of locomotives do not as a rule exceed much more than 100 miles. This new production of mechanical art exceeded the expe tations of the most san-guine. It was subjected to the severest est during the run, and proved it-elf to be vast improvement on the engines now used. At several points it exhibited a high rate of speed, some parts of the journey being made at the rate of over a mile a min-ute. Up grade and down grade it brought its burden safely into this city at 10:30 last night, exactly on time, without the slightest mishap and but little, if any, the worse for the unprecedented strain put upon it. The train consisted of nine cars, and left Jersey City at 9:25 a. m.
